

## **Sherita Hill Golden, M.D., M.H.S.**

Assistant Professor of Medicine and Epidemiology  
Division of Endocrinology and Metabolism  
Bloomberg School of Public Health  
Johns Hopkins University School of Medicine

### ***Research Interests***

My primary research interest centers on identifying endocrine risk factors associated with the development of diabetes and cardiovascular disease through the incorporation of measures of hormonal function into the design of clinical trials of cardiovascular risk modification, observational studies of incident cardiovascular disease and diabetes, and studies evaluating diabetic complications.
